## MID YEAR TEACHING PROGRAM 2021 ONLINE WORKSHOP ON 'MUSCLE BIOPSY PATHOLOGY' 24<sup>th</sup> & 25<sup>th</sup> April, 2021

**Organized by:**  
Department of Pathology,  
Nizam's Institute of Medical Sciences,  
Hyderabad

### INVITATION

It is matter of great pleasure to invite you to join us online for the "IAP-ID Mid Year Teaching Program on Muscle Biopsy Pathology" being organized by Department of Pathology, Nizam's Institute of Medical Sciences, Hyderabad on 24th and 25th of April, 2021.

Muscle biopsy analysis forms an important tool in the investigation of hereditary and acquired muscle diseases. The facility of muscle biopsy processing and interpretation is limited to few institutes of our country. Understanding muscle biopsy pathology is a team effort of the clinician and pathologist together. This workshop is designed to present a detailed overview of each aspect of muscle biopsy evaluation from clinical insights to procedure and various processing techniques which help in correct biopsy interpretation. The slide set cases will help the delegates experience the actual slide interpretation of classic cases and also problem solving in difficult cases.

The workshop is a rare opportunity for the delegates to learn the importance of a rather neglected but very dynamic part of pathology.

The educational content of the online workshop will be relevant to Pathologists and also to the residents of neurology, rheumatology and medical genetics.

Looking forward to your participation and hoping to provide an excellent learning experience.

**Dr. Megha S. Uppin**  
Organising Secretary
